

# Population futures in an uncertain world:

## *The changing faces of Aotearoa New Zealand*

New Zealand's Population Conference 2023  
29 and 30 August 2023, Engineering Building, University of Auckland  
Organised by the Population Association of New Zealand  
Te Roopu Waihanga Iwi O Aotearoa

### Stats NZ Jacoby Prize 2023

The Stats NZ Jacoby Prize is awarded by the Population Association of New Zealand **for the best paper on a population topic written during a course of university study**. The 2023 Jacoby Prize will be awarded during New Zealand's Population Conference 2023 and is open to all current or immediate past tertiary students throughout New Zealand. Length for papers should be 5,000 to 8,000 words (not including tables, figures, and references).

We welcome papers on a wide range of population topics, including:

- Population and demographic change
- Health and wellbeing
- Inequality and poverty
- Migration, regional dynamics & labour markets
- Indigenous data sovereignty
- Diversity, gender and ethnic identities
- Housing and homelessness
- Families, whānau and households

The winner will receive \$500 from Stats NZ and the winner will be offered the opportunity to publish their paper in the New Zealand Population Review Journal (NZPR). The two-day registration fees and conference dinner cost will be paid by PANZ. In addition, the cost of travel and accommodation (if living outside Auckland) will be also be covered for the winner along with 2 years free membership to the Association.

Submit your entry via email to [omoniya.alimi@waikato.ac.nz](mailto:omoniya.alimi@waikato.ac.nz)

*Entries close on 30 June 2023.*
