# Background

# Background

## Post-Pandemic Recovery

Educational mobility is recovering after the pandemic as borders open up.

## Mobility Pathway

Education mobility leads to education, work permits, and residence changes.

## Education Opportunities

Students regain chances to study globally, with Australia and New Zealand gaining popularity among Global South students.

## Global North vs. South

More research needed to understand Global South students' mobility.

An abstract graphic on the left side of the slide. It features a large, light blue circle with a dark blue outline. Inside this circle is a smaller, rounded blue shape containing the white text '02'. Surrounding the large circle are four smaller, rounded shapes: two dark blue and two light blue, arranged in a square pattern. Dashed lines connect these four shapes to the large circle. In the bottom left corner, there is a small black number '5'.

02

# Research objectives

# research objectives

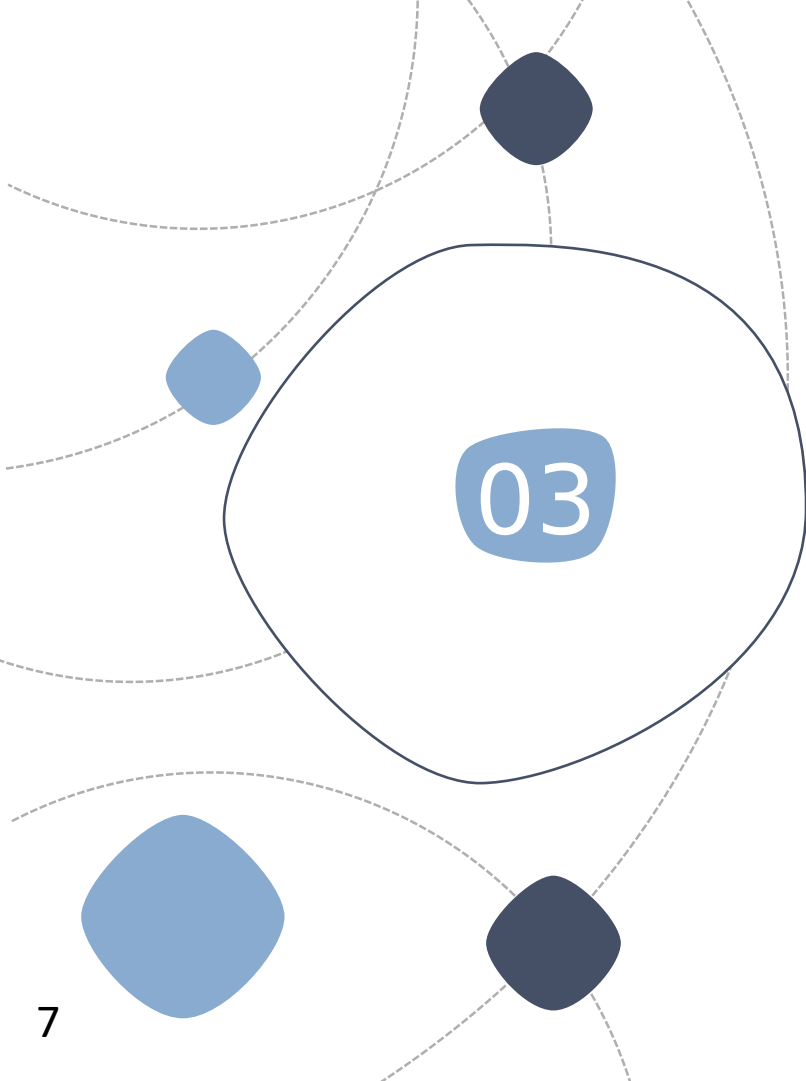

Identify the **contributing factors** behind the higher education migration of Global South students to Australia and New Zealand.

Explore the **educational experiences** of Global South students studying in Australia and New Zealand.

Analyse existing research to understand the influence of **education and migration policies** on the transnational mobility of Global South students

# Methods

# Methods

## Eligibility criteria

- \*Participants: students from Global South (>18+)
- \*Education qualifications: diploma+
- \*Research type: empirical study
- \*Study design: qualitative, quantitative, or mix-methods
- \*Publications: journal article

## Information sources

Education Source  
ERIC  
JSTOR  
ProQuest  
Scopus  
Web of Science

## Selection process

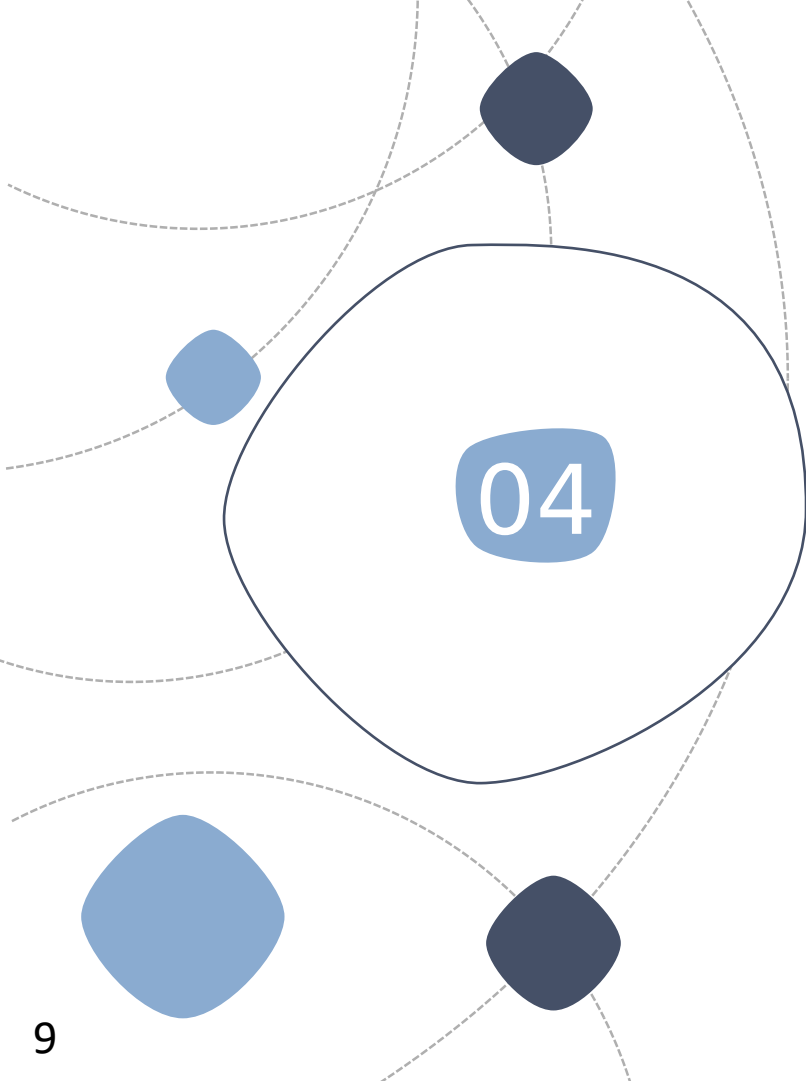

- \*Pilot testing
- \*Double screened by two independent authors
- \*Regular meetings and discussions

## Data extraction

Study information (participants/research purposes/findings)  
Data collection methods & tools  
Educational experiences  
Education & migration policy

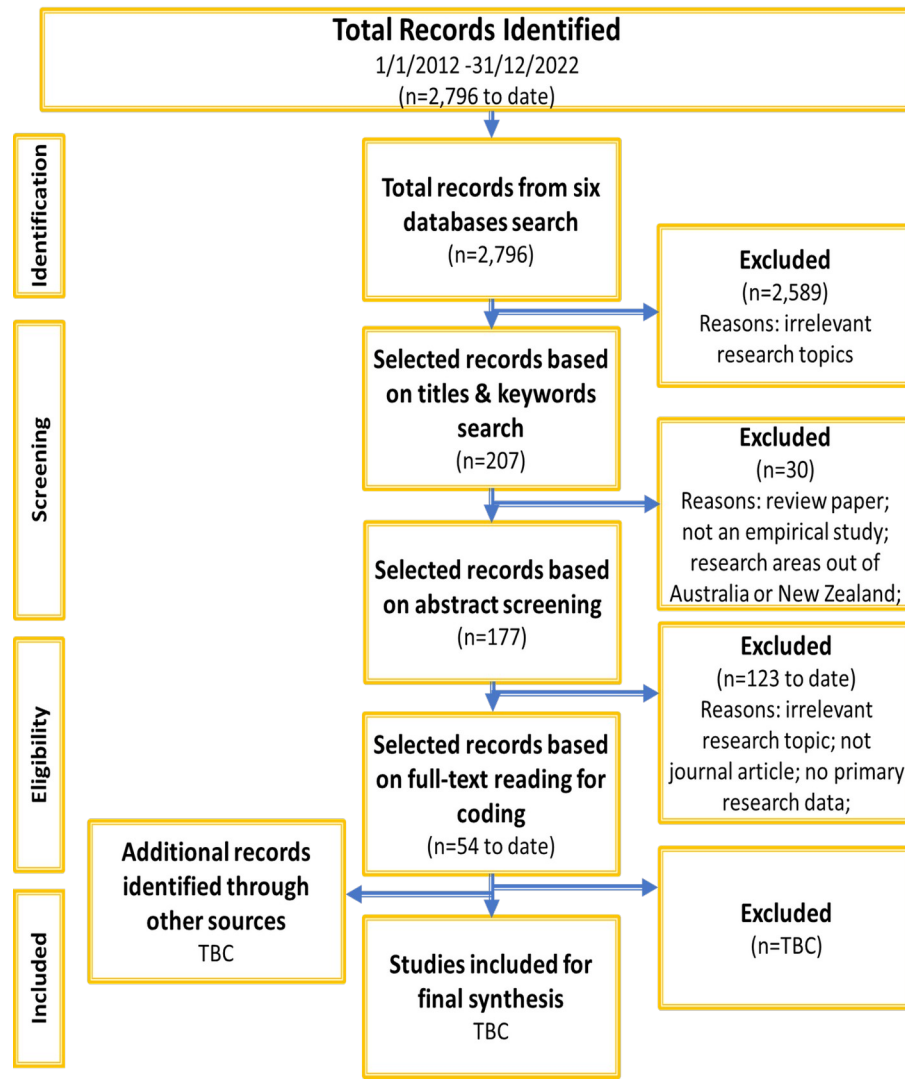

# Preliminary results

# Preliminary results

# Preliminary results

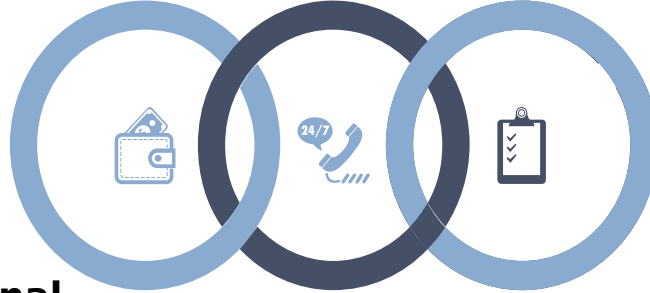

## Factors influencing Global South Students' movements for higher education

- Attractive migration policies
- Higher living standards and career opportunities

## Educational experiences for Global South Students

- International Student Identity Shifts
- Academic Challenges and Adaptation
- Health Awareness and Concerns

01

03

## Roles of education & migration policies

### Education policies

Australia's leadership in attracting international students:

- Australia's success in attracting international students.
- Government emphasizes economic contributions of international students.

### Migration policies

Roles of migration policies :

- Australia's immigration policies significantly affect international students, especially from China.
- Visa restrictions may significantly impact international graduates' employment prospects

An abstract graphic on the left side of the slide. It features a large, light blue circle with a dark blue outline. Inside this circle is a smaller, light blue rounded rectangle containing the white text '05'. Surrounding the large circle are four smaller, dark blue rounded rectangles, each containing a white dot. These dots are positioned at the top, bottom, left, and right of the large circle. Dashed lines connect the dots, forming a square around the large circle. The background is white.

# Potential implications

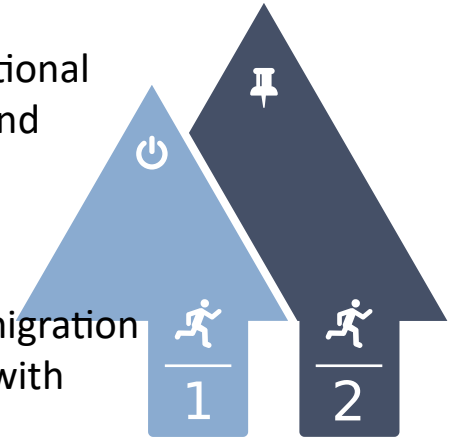

# potential implications

## Education policies

- **Enhanced student integration and equitable access:** Targeted scholarships for disadvantaged students promote equitable access and diversity.
- **Conscious institutional approach:** Foster partnerships between educational institutions and students; enhance support systems, responsiveness, and educational outcomes.

## Migration policies

- **Economic contribution and international competitiveness:** Tailoring migration policies to transition international students into skilled workers aligns with economic benefits.
- **Retention and Impact on Employment:** Stringent residency requirements may lead to skilled graduates seeking immigration elsewhere.
